

IN THE SPECIFICATIONS

Please replace the paragraph beginning at page 8, line 18, which starts with “The inner wing”, with the following amended paragraph:

The inner wing 33 is formed to be a similar circular arc shape with the guide portion 13, and it is desirable that a space 31b is formed inside of the inner wing 33 so that the guide portion 13 can be inserted thereto.

Please replace the paragraph beginning at page 8, line 25, which starts with “Herein, a winding recess”, with the following amended paragraph:

Herein, a winding recess 31c is formed on outer portion of the body 31 so that the coil 40 can be wound a plurality of times, and it is desirable that the edges of the body 31 are formed to be round so that a covering of the coil 40 is not be taken off when the coil 40 is wound.
